What's new in NF on SIP 3.0

The Norman Furniture demo site contains all the fixes and improvements that have been implemented in the clean SIP 3.0 installation. Please refer to the SIP 3.0 release notes for more information.

In addition, the following changes have been implemented in the Norman Furniture site:

1. The standard Norman Furniture users have the same passwords as they did in the previous version.

User name	Password	Role
Frontend users		
extranet\addemo	demo	extranet\Management
extranet\Jan	demo	extranet\Management
extranet\Phil	demo	extranet\Employee
extranet\Rachel	demo	extranet\Employee
extranet\Susanne	demo	extranet\Employee
Backend users		
sitecore\Admin	admin	sitecore\Sitecore Client Users
sitecore\Charlotte	charlotte	sitecore\Sitecore Client Users
sitecore\Nanna	nanna	sitecore\Sitecore Client Users

2. The "extranet\Employe" and "extranet\Management" roles are both members of the new Sitecore Client Page Editor Only role, giving the users permission to use the Page Editor as front-end editor.
3. The roles for the backend users have been updated to use the CMS 6 Sitecore Client roles.
4. The Sample Workflow has been ported from CMS 6 and has been configured in the following way:
   a. The **Extranet\Manager** is allowed **Workflow State Delete**, **Workflow State Write** and **Workflow State Execute** for **Awaiting Approval** and **Approved** state commands.
   b. Sitecore Client Authoring role security assignments have been removed from the workflow.
   c. As a result only extranet\addemo and extranet\Jan can approve items in the Sample workflow
   d. The Auto Publish action has been removed (as SIP is running in Live Mode)
5. The "/sitecore/content/home" item is no longer needed and has been deleted
6. All the sample activities have been moved to 2009/2010 years
